
It is worse than madness to neglect a cough or cold which is easily subdued if taken in time, because, when left to itself, the force of the inflammation, when it reaches the delicate tissue of the lungs and bronchial tubes, travels with the blood stream, and then do not delay, get a bottle of Hickey's Anti-Consumptive Syrup, medicine that cures the most formidable form of the human body, and drives it from the system. The medicine promotes a free and easy expectoration, soothes the cough, breaks up the phlegm, and exerts a most wonderful influence in curing consumption, and other diseases of the throat and lungs. If parents wish to save the lives of their children, and to prevent the much anxiety, trouble and expense, then procure a bottle of Hickey's Anti-Consumptive Syrup, and whenever a child has taken cold, has a cough or hoarseness, give the Syrup according to directions.

Strange how much fatigue people can endure when they think they are having a good time.

Money saved and pain relieved by the leading household remedy at St. Thomas, Electric Oil—a small quantity of which usually suffices to cure a headache, neuralgia, rheumatism, sprain, relieve lameness, rheumatism, neuralgia, neuralgic neuralgia, or any ailment.

Some folks never seem as anxious to get out in public as they are when something the matter with them.

Cholera and all summer complaints are as quick in their onset as lightning, and hand of death is upon the victim before they are aware that danger is near. If attacked do not waste time in getting proper medicine. Try a dose of Dr. J. D. Kellogg's Cholera Remedy, and you will get immediate relief. It acts with wonderful rapidity and never fails to effect a cure.

Hard luck sticks to some men like a green spot on a pair of new trousers.

Also a young man becomes sufficiently familiar to stay until midnight, the girl begins to get weary.

Abnormal enthusiasm too often passes for great executive ability.

That is what Mr. S. J. Farrell Calls

His Duties in South Africa.

We have been handed the following

letter for publication, which is from

Mr. S. J. Farrell, M.D., formerly a resident

of Belleville and a student of

Albert College. He is with the Am-

bulance Corps of the Second Conting-

ent to South Africa.

Kronstadt, Camp, May 15, 1900.

Dear brother and sister—We are in

camp now, just outside Kronstadt,

which we captured some three days

ago. We have been routing here since,

waiting for the horses and men to

arrive and for the infantry to come up

with us. We have had a lot of hard

work in the last fifteen days; we had

about ten days of a running fight

with a few very rough shots, which

lost quite a lot of men in the

brigade, not many of our own squadrons,

but we had some very brave men.

The sight of the battlefield in all its

revelation is far from what is pic-

tured in books or in our imagination.

The shells commenced first to fly in

some proximity to our position, and

made themselves visible which you

could never have for any other cause.

Then the sight which is so terrible

leave behind is too ghastly to write

in your diary. I am having a real

ghost experience, an experience of a

kind which I will be great benefit

to me in many ways. I was offered a

good thing in a moment of the

time, but the colonel here would

not allow me to go. I don't know

what I may be appointed if so the

colonel can't keep me, and if he does

keep me he should give me something

better than I have now. I thought I

complain as I have my own way

strictly in advance.

THE ARMOUR CADETS

Were the Bright Particular Stars of the Entertainment Last Night.

Marched Like Clockwork, with a Dash and Go Pleasant to See.

A Large and Representative Audience Present—Many Interesting Features—Trip Down the Bay in the Afternoon—The Boys Pleased with Their Welcome in Belleville.

What's the matter with the Armour Cadets? They're all right, they contributed a large share of a very pleasant entertainment last night.

They themselves, the gentlemen and ladies, had a good time themselves and helped to provide for others.

The marching and manual exercises of the Cadets was a revelation to many people who did not, up to last night, know what interest young men can take in military drill when they get the proper kind of encouragement.

There was a large audience present when the programme started at 8.15, and it was a representative Belleville audience, too, liberal with their applause for all the good points, and they were numerous.

The first four rows of the orchestra chairs had been reserved for the Cadets, the members of the Daisy Lark Club and the P. M. Band.

The Cadets, who were dressed in their new uniforms, marched in a very smart way, and they played it in fine style, too.

Col. Ponton, who was chairman, in an appropriate speech, then welcomed the visitors. The Cadets, he said, were glad to have the opportunity of entertaining a United States corps, and in some small measure reciprocating the friendly hospitality extended to them in Rochester just a year ago.

No man of the Regiment, he said, had received their grand old British Grenadier's march, and they must remember that even our British-American troops were fighting side by side in China in the interests of civilization.

The American papers of the day could say what they liked, but he believed that the bond of fellowship between the Anglo-Saxon race, which would some day make the world one, was stronger than the animosity of the moment.

THE RED CROSS SOCIETY

Council Met in St. George's Hall Wednesday and Reports were Presented.

Two Reports from Dr. Myerson. Eggs are Bought for the Canadian Red Cross Society.

More Donations.

The final report of the Toronto Local Branch was presented, which related to the receiving and shipping of supplies for the Red Cross.

The thanks of the council are due to Messrs. Christie, Brown & Co. for one case of biscuits.

Financial statements were received from Dr. Myerson, showing expenditures to date.

Additional donations to the amount of \$2,356.38 were acknowledged, \$132.00 of which was for eggs.

The council recently received from Dr. Myerson, Bloomington, by cable, \$1,000 for eggs.

Dr. Hodgetts, hon. sec., has much success in submitting the following resolutions to the committee.

On the work of the St. George's Hall, the committee has been deferred.

The Council of more recent date will be published in a few days.

The Colonel Wounded.

We have had a large accession to our stores, owing to the help of the Red Cross Society.

I noticed that the ambulance train was not quite empty, so that when at the request of Sir John Purley, I went to the chief of staff, Lord Kitchener.

I proposed that the train should bring up the supplies. He immediately agreed to the proposal.

I am very glad to be able to report that the train is making most satisfactory progress, and will soon be able to return to the front.

How Ample Supplies Were Got.

Regarding the eggs, no more important contribution could be made for the welfare of the soldiers.

The eggs are dear, but most important, and are absolutely indispensable.

I feel disposed to contribute another \$100 for this purpose. I make a condition that every Canadian who is permitted to buy a doctor shall have an egg daily.

Am Sick and Wounded.

I am sorry to report that there are 4000 sick and wounded here.

It is because this is the case, and all sick and wounded are sent here until they can be sent to Wymore.

The demands on the hospital are large, and I think it is well to call upon you for further contributions when I think it necessary.

I think you are aware that the British Red Cross Society has been appointed British Sub-Commissioner, with headquarters in London.

I enclose a report, which I obtain from the British Red Cross Society, showing the work of the hospital.

The cases in hospital are still in a critical condition.

A Yankee Newspaper Don't Understand Laurier's Inconsistency.

(Owego Palladium.)

In a speech delivered in 1891 Sir Wilfrid Laurier uttered the following sentiment: "There are people in my country who say that an Imperial federation, that is to say, a federation between England and the colonies would be the best alternative for Canada. I do not think so."

It is in favor of the Monroe Doctrine as applicable to Canada, I am in favor of the Monroe Doctrine.

Do not make the intervention of Europe in our affairs, and it would be suicidal on the part of Canada to engage in a federation that would force it to take part in all the wars which Great Britain is consequently obliged to wage in different parts of the world.

TALKED HIMSELF

OUT OF A JOB.

The Case of Col. Sam Hughes, who

Found the Commander-in-Chief

a Bad Man to "Save."

Montreal, July 19.—A prominent

military officer (today received ad-

vice from South Africa, which ex-

plain the cause of Col. Sam Hughes'

retirement from the Imperial ser-

vise in South Africa. It appears

that in his capacity as an intelligence

officer, Col. Sam Hughes, on more than

one occasion made bodies of troops

without authority. On the last such

occasion he was sharply reprimanded

with by his superior officer, and Col.

Hughes talked back in language

more pointed than judicious. There-

upon the matter was reported to

Lord Roberts, who asked for expla-

nations. They were given, but again

with a frankness of language which

the Commander-in-Chief is not ac-

customed to.

The upshot was that Col. Hughes

was asked to send in his resignation.

IS RUSSIA PLOTTING?

Put an Army Near India, and is Said

to be Secretly Negotiating with the

Boxers.

London, July 19.—The Russian Min-

ister of War at St. Petersburg, has

issued several orders for the reor-

ganization of the army. The appar-

ent effect of the carrying out of these

orders, despite the trouble with China,

will be the concentration of forces to

the north-west of India.

The Shanghai correspondence of the

Times, which is apparently a story to

be published in the near future, says

that the Russian minister has been

secretly negotiating with Prince Tuan

the leader of the anti-foreign element

with the view of forming a secret

alliance with Russia, but

Viceroy Chang-Ching-Tung will not

agree to any such proposition.

MARQUIS WON THE FIGHT.

How Waterford Nobleman Whipped

the Cock of the North.

The celebrated Marquis of Water-

ford, one of the best fighters of his age

when driving in his chariot once in

the neighborhood of his Irish estate,

observed a hairy and aggressive-looking

individual strutting along the high

road with a benevolent smile on his

face. The night was so serene that the

marquis ordered his coachman to stop

and inquired of him if he knew who

the person was and why he wore such

a singular decoration.

"Faith, my lord, it's Tim Brady from

Belfast, who calls himself the cock of

the north, and wears that thing in his

hat that everyone may know him and

everybody's frightened of him,"

was the reply.

That was enough to excite the mar-

quis' emulation.

"Here, my man, I want you," he

called out. "Go you call yourself the

cock of the north, and everybody's

frightened of you," he said, when the

bruiser, not in the slightest degree

abashed, came up to the carriage

door. "Now look here," taking a fire

from his pocket, "here's a firebrand

what do you say to have a turn

up? If you beat me the note is

yours, if I beat you the object of su-

perbidity is mine."

The marquis was delighted, and as

he stepped, already felt the crisp bit

of tissue between his fingers. The

marquis was quickly divested of him-

self of his habiliments and put the strict-

est of his intentions upon his servants

that they were on no account to in-

terfere. The pugilist went to work

with the intention of making a short

and snail, but got such a floorer for

his precipitation that in the next

moment he thought it best to go upon

a cautious note. Very soon, however,

he discovered that this rough style was

no match for that of the marquis, who

had graduated in the most scientific

schools of fistic art, and after half a

dozen very short rounds Tim Brady

dropped the sponge. With a knife

and his lordship cut the brass effigy

of the crestfallen bruiser's hat, and

it is hanging in the hall of the man-

or's house as a trophy.

WHOLESALE WHITEWASHING.

The Ross commission has white-

washed the Ross commission in

connection with the West Indian

frauds. It could not do anything

else under the restrictions laid upon

it by the Ross Government. But

the result is rather too ludicrous for

the people to be deceived by the white-

washing. The machinists who ever

since they state that election for

Macnab have been in hiding or living in

the United States to escape the

process of Canadian courts, have all been

declared innocent. It seems they were

innocent all the time and did not know

it when they ran away. And the

Grit organization in Canada was equally

ignorant of their innocence when they

rest on month after month paying the

expenses of the exiled Ewen Pritchett,

whom the Grits recently charged with

all criminalities because of his

confession under oath, is included in the

certificate of innocence. And what

Macnab? Macnab, who confessed all

the frauds, even though the

confession went far to unseat him? Why

Macnab is necessarily treated as the

author of a deliberate lie, though he

knows that "lie" would be put him

out of his seat in West Indies? Macnab

made and signed the following

confession for use at the trial of the

election petition against him:

"1. A large number of persons

were specially sent into the country

by the Ross government to

work in the election of the

liberal party, and fraudu-

the election of Macnab by

some of such persons to secure

A BUSINESS SESSION

Of the Various Civic Com-
mittees Last Night.

Streets on West Side to be Repaired--

Moxam's Case Goes to a Special

Committee—Surveyor Says the

Streets are Watered to Death

Ald. Bogart will be Acting Mayor

During Mayor Johnson's Vacation

The meeting of the various Civic

committees last night was somewhat

prolonged by the lengthy discussion

which took place upon certain mat-
ters brought forward. The account

of \$3,715 for hydrant rental due the

Waterworks, was thoroughly dis-
cussed and resulted in the account

passing, less \$500. The Moxam mat-
ter was brought up and referred to

a special committee, with power to

set the letting of a number of

Waterworks for the retention of

seals imposed by the Magistrate for

allowing their cattle to run at large

within the city was not entertained.

Other matters of interest and im-
portance were introduced.

The members in attendance were

Mayor Johnson, Aldermen Bogart, Harris,
Doyle, Clarke, Stirling, Bogart and

Panter.

Market and City Property.

Ald. Panter, chairman, presided over

this committee.

The accounts recommended to be

paid were \$8 to C. Herring and \$50

to the City Company.

On motion it was decided that a

portion of the Market Square, which

needed repaving should be attended

to as soon as possible.

Sidney Cow Case.

Mr. E. D. Porter was heard in re-
ference to the petition which was pre-
sented to the Council, asking that

body to build a road from the

several cases of Sidney farmers having

been fined for allowing their cattle to

run at large in the city. He said

these gentlemen had allowed their

cows to run at large in the city and

they were willing to pay the fine

imposed on each man and had paid

the fine. He asked that the Council

should consider the case and if they

thought it was paying too much for

the fine, they might reduce it.

The Mayor thought that the fine

was excessive under the by-law, but

he considered they should pay the

fine as it was imposed after having

paid the fine.

The matter was referred to the

Executive Committee.

Fire, Water and Light.

Ald. Stirling, chairman, presided.

The account of the Waterworks de-
partment for \$3,715 for half yearly

payments, caused a lengthy dis-
cussion.

Ald. Doyle thought that an instal-
ment might be paid out of the ac-
count at present and not all paid at

once. The Council had to provide for

the Waterworks department, and he

considered that the Council should

pay the bill for the year.

The Mayor said they all recognized

that the account of last year was

paid. The Waterworks was pay-
ing its own way. Out of the ac-
count of last year, the Council had

paid \$1,000 for the year. The ac-
count of last year was paid. The

Council had paid \$1,000 for the year.

The Mayor said they all recognized

that the account of last year was

paid. The Waterworks was pay-
ing its own way. Out of the ac-
count of last year, the Council had

fire hall, such as had spreads, etc.—
Carried.

Moxam Case.

The Mayor said some steps should

be taken in the matter, as Mr. Moxam

was under suspension, and the

Council had to decide the matter. As

the efficiency of the individual he

did not know, but had never heard

anything against him.

Ald. Stirling stated that this was

not the first time that the Chief had

been suspended. Mr. Moxam, if the

men was not amenable to discipline

he should dismiss him at once.

Ald. Grills and the Chief had not

given Mr. Moxam a full reputation

as a fireman. If it would cause fric-
tion among the men by retaining Mr.

Moxam, then the best thing to do was

to dismiss him.

The Mayor asked if Moxam had been

reported before.

Ald. Stirling—At the time of the

Queen's Hotel fire Moxam was there

and was under suspension. He was

reminded that to be a fireman was

Alleged Cow Inspector Down side

of that point he established in

Blumker, Coleman and Moxam wards

and present there was but one pound

in the city and that was in Peter

ward.

Ald. Stirling—Does our Inspector

endorse this request?

The Mayor—Does the two inspec-
tors find out where the pounds

should be located?

Ald. Bogart said we should find out

where the pounds should be located.

On motion the matter was referred

to the Inspector.

In answer to an enquiry the Mayor

said the Police Commissioners had

not met to decide the matter refer-
red to them in reference to certain

duties of the Inspector. This was

being referred to the City Council

at the City Council meeting.

Ald. Doyle said there were no ac-
counts before his committee and the

accounts recommended from the

committee were endorsed.

The committee adjourned.

Public Works.

Ald. Harris, chairman, presided at

this committee. The business trans-
acted was as follows:

Pay Sheet.

Mr. J. F. F. Williams asked for a

crushing on Queen street, near William

street, to be granolithic, and he would

be willing to pay \$10 towards the

structure.

Ald. Stirling moved that the cras-

hing be built—Carried.

A communication was read from the

Street Surveyor, in which he stated

that the streets and sidewalks were

being watered and that the streets

and sidewalks were being watered

Daily Intelligencer.

TIMELY TOPICS.

Col. Patton has just received a telegram from South Africa, which reads:

"Dear General, and out of danger."

Good news, which everybody will be glad to hear. The Intelligencer joins in congratulations to the latest soldier's family.

In a letter from Capt. Tom Walter Mills says he had no more work to do that was almost off his head, and it had to be done. He says Capt. Cunningham on the 10th. The letter says: "He is as thin as it is possible to be, but he is out of all danger now and is beginning to pick up." Large and McNeil have gone home. I don't know whether any more Belleville boys have gone or not. Oh, yes, I believe Lynn has gone, too.

Walter goes on today that he is well but suffers from rheumatism in his head, and was afraid it was going to stay with him for some time. The letter concludes: "Just got a cable from Minister of Militia of Canada to the effect that Major Hagar is to be gazetted a Lieutenant-Colonel. Lucky boy."

We have been handed a highly interesting letter from Walter, written shortly before the one mentioned above, which it is impossible to quote today. It will appear on Monday, and will, we are sure, be eagerly read.

A great deal of relief will go up from the inhabitants of the West side of the river when they hear that some of their friends and neighbors are about to be required. This proves the truth of the old proverb, "Everything comes to a man who can wait."

Of course they don't expect to be fixed up in regular Queen St. style. Like sensible people, who are always willing to receive small favors, they will take what they get and be thankful.

That remark of Ald. Starling's last night, "Does Our Interlocutor endorse the request?" was very pertinent and well-timed, and shows that, in the opinion of progressive and influential members of the Council, is entitled to the office. We congratulate Ald. Starling on his evident desire for economy.

Ald. Gilling, too, certainly deserves his complimentary mention. He has expressed desire to see fair play shown to all our merchants. Men who pay their taxes and keep good materials are each and all entitled to a share of the City's money when they have any to spend. As our County Antiquarian friend would say, "Right's right, and right's wrong."

A local newspaper man tried to interview the Chinese laundryman on the Baker Street. He was told by the Chinese laundryman that he was not a Chinese laundryman, but a Chinese laundryman. He was told by the Chinese laundryman that he was not a Chinese laundryman, but a Chinese laundryman.

Some Liberal newspapers of the Hamilton Times variety are congratulating the action of the Senate in turning down Hon. Mr. Mulock's bill re postage on newspapers. Perhaps a good many people don't know how palpably unfair the bill was. Here is an illustration. Under Mr. Mulock's bill if an Ottawa paper (for instance) wanted to send 100 copies to Hull the postage would be 50 cents; if it wanted to send them to a great 3,000 miles away, the postage would be 12-12 cts. What reason can anybody advance for a bill like that becoming law?

There is an up-to-date undertaker in Mantua, N. J. A man owed him a bill for burying his wife, and he could not collect it. He told his mind and the arrangements were made in the hands of another undertaker. The first-named undertaker attended the funeral, which the deceased was lying in, and the relatives had to pay the bill before the funeral could proceed.

It is getting warmer; the war in China is the cause. Many good ideas will soon be up against the humor of war.

"What are you fellows talking about?" said a fellow, by giving Rutledge the job as a citizen to the Intelligencer. "Well, isn't it a choice between one man at \$500 and another at \$250?"

"Not as the case stands at present," was the reply, "and I'll explain it to you. Downs gets \$500 and he'll Rutledge \$250, that's \$250 more you save \$250."

"No, give Rutledge the job at \$250 and you save \$250."

"No, give Rutledge the job at \$250 and you save \$250."

The little daughter of a clergyman was sitting and in conversation with her mother. "Mamma," said she, "I want to see my dear papa."

"No, dear," said her mother. "Papa is not to be disturbed just now. Presently come the little girl in and said: 'I want to see my papa.'"

"No," was the answer, "I can not disturb him now. Then the four-year-old paragoner came in and said: 'I want to see my papa.'"

"I am a sick woman, and I want to see my mother."

Daily Intelligence.
TIMELY TOPICS.

Did you get back from Kingston?
And a gentleman to the Intelligence
office today. "And I've got a look
out."

"No doubt," said the scribe,
"everybody who comes from there
has a story to tell." "Well, it's about
these asphalt sidewalks that our City
Council are going to build," was the
reply. "They're no good. If some of our
Councilors could go and look at those
in Kingston I think they would never
want to build any in this city."

"What's wrong with them?" asked
the Intelligence; "they can't get
down and fly up and hit you, any-
way."

"No," said the scribe, "but they
get away and soon become unsafe.
I've seen many Kingston people
about them and they all agreed
that they were a nuisance and a
nuisance. I also spoke to some Tor-
onto gentlemen who were in King-
ston when I was, and they also said
their experience with asphalt side-
walks had been anything but good.
Everybody I spoke to agreed that
in the long run a municipality saved
money by putting down asphalt
sidewalks. I would like to see the
City adopt a penny wise and pound
foolish plan in connection with our
sidewalks."

And so, of course, would everybody.
It certainly looks as though the
City Council should make a few
more enquiries before they commit
themselves to any considerable de-
gree, to the building of asphalt
sidewalks.

Speaking of sidewalks, a gentleman
addresses a note to The Intelligence
in which he complains of the
action of the Public Works com-
mittee in ordering some more
"limeolithic crossings." These
walks and crossings proved a failure
last year, our correspondent
says, and the present action of the
Committee is "only throwing good
money after bad."

Our correspondent further alleges
that he was informed by a promi-
nent legal gentleman that he had ex-
cellent grounds for appealing
against the assessment of a house
on Grier street, the said grounds be-
ing a "limeolithic sidewalk." This
fact may well be borne in mind by
the gentlemen of the Public Works
Works Committee before they
build any more walks of that de-
scription.

Writing from Montreal, a gentleman
who is just now enjoying a pleasure
trip, says: "Tell the editor of The
Intelligence he is mistaken when he
says there are no pretty girls in
Kingston. I saw one there who
was as beautiful as a May morning.
It must be stated, though, that she
was only there on a visit."

It begins to look as though the for-
eigners in Pekin had as many lives
as a cat.

During the Summer months many
strangers visit our beautiful city.
When friends desire to show them
the Rolling Mills, let them take
Front and Wharf streets, as to
seeing the disgraceful condition
of the old Methodist burying
ground.

Mr. C. M. Reid kindly sends The In-
telligence a copy of La Patrie Pa-
rienne, published, of course, in La
Belleville. It is about as big
as thirty cents, and a Canadian
paper would soon starve to death
on its advertising patronage.

The youngsters who sit on the rail-
road of the footbridge at night should
be asked to move on.

Grid papers which are trying to make
political capital out of young Bor-
den's death are up to mighty small
business. None but smart hypo-
crites like the Hamilton Times use
and some of his followers would
do it. But the Times man would
die up a whole graveyard to bene-
fit his party's friends.

A man met a bull in a field. "I'll
tell you who who says," said the bull.
He tossed, and the man lost. The
man said, "that it is never safe to
strut in games of chance, especial-
ly when the odds are against you."
-F-

Well, sir, there's no one talking, they
do have all sorts of funny things in
Kingston. The Times says a gran-
der there got an order from a cus-
tomer which read as follows: "Send
me a sack of flour, 5 lbs. of coffee
and 1 lb. of tea. My wife gave
birth to a large baby girl last
night, also five lbs. of starch and one
dozen of soap."

It weighed ten pounds
and a straw hat."

Our Ontario Bibles has sailed for
Quebec and will soon be reaching
over the Canadian nation. Hail,
Bible!

A friend of our says he believes, by
the way the local Chinese (mostly
men) wear up the hair, that they
belong to the Boers. He says they
"sit up" in more ways than one.

An English peasant talking to his
American neighbor told him that
"the Boers must succeed because
they were constantly praying for
victory." "But so are the Boers,"
said the Englishman. "That is no matter,"
said the Boer, "for God does not
understand English." And the
Englishman believed that because Presi-
dent Kruger had told him so!

A New York yellow journal seri-
ously discusses the question "Shall we
smoke in Heaven?" It does not
seem likely, but that fellow needs
worry. He'll probably go to a place
where he'll smoke all the time.

His last year of Conservative reign,
1896, in Canada, the cost of adminis-
trating Government was, including
expenditure on capital account,
somewhere in the neighborhood of
\$1,000,000. The present year of
trifling rule shows a demand for over
\$600,000, for both services. How
do Liberals who clamored for econ-
omy like it?

During 15 years of continuous Con-
servative reign in Canada, the pa-
per debt was increased about \$13-
000,000. The Grit Government has
in a little over 4 years added to
the public debt \$25,000,000. Noth-
ing like Grit economy, is there?

The letter from our old friend, Mr.
Joseph Parker, which appears in
another column, contained an ob-
ject which will be of vital impor-
tance to many of The Intelligence's
readers. Mr. Parker does not
present a pleasant picture, but his
subject, object seems to be to
keep Hastings County young men
from going to the Northwest on a
fruitless errand.

Laurier is getting some credit for
not taking a holiday this summer,
but the fact is so many of the Cab-
inet are away picking that he is
the only one left to be compelled to
stay at home. Then, again, there's no
room for another French-Canadian
in Paris, with Tarte there.

Kingston Veterans are after the land
which they claim was promised for
their services in 1860 and 1867. They
say every man who served there was
granted 168 acres of land - pre-
sumably in the Northwest, and a
big meeting is called for to-night
to see about pressing the claims of
the Kingston men.

Ottawa Free Press: "The Tory organ
quiesce some one as saying that
"the Government is going to do
something." Surely the Tory
party cannot drop much lower."
Finish your sentence, old boy: "than
the Liberal party has." No, in-
deed, it's not possible.

Kingston Times: "The Brockville
Times credits a young lady in doing
with an attempt to jump an excava-
tion made for a sewer, but it is
so full in and had to be helped out.
We had no idea they had such girls
in Brockville. A Kingston girl
would walk a mile or more around
before attempting such a thing, and
as for a Belleville maiden, well, she
would flake the nearest man to take
her in his arms and yell across
the channel." And the man would
gladly do it, but the chances are
he would get frightened and run away
if a Kingston girl asked him to
carry her over.

A physician states that people who
sleep with their mouths shut live
longer. The same remark might
be made about people who stay
awake with their mouths shut.

The Toronto Star thinks it would be
a good idea for editors to exchange
papers occasionally, like ministers
do puppets. It would never work
at all. Grit readers would get as
much truth thrown at 'em some-
times they'd stoop the paper.

Lord Wolsey says: "China possesses
every requisite for overturning the
world. She has a population of
400,000,000, all speaking the same
language, or dialect, readily under-
stood from one end of the empire
to the other. She has enormously
developed wealth, and still more
enormous natural wealth awaiting
development. Her men, if properly
drilled and led, are admirable
soldiers. They are plucky and
able to live on next to nothing.
Moreover, they are absolutely free
from death. Begin with the founda-
tion of millions upon millions of
such soldiers as these men are,
equipped and trained, and tell me
if you can, where the end will be!"

Toronto Telegram: "Canada's for-
tunes will be made to go from the
tons of this year's harvest to sit
at dinner and listen to a lot of jok-
ing politicians telling the crowd
that statesmanship is making them
rich."

QUALITY and ASSORTMENT

Are not to be equalled—that's the opinion of all.
You'll hear it often every day: "I don't find the
quality or assortment elsewhere as I do at Quick &
Robertson's." True, nor are the prices found
as common. If you don't believe it, visit other
clothing stores, then come here—you'll leave with
the same impression. Impressions make opinions,
you know. Perhaps you want a suit, a shirt or
only a hat, but you want the widest range of
styles to select from. That's where our assort-
ment completeness counts. Every department is
always in a perfect state of readiness to supply
your wants for any kind of weather. So come to
the Reliable Store where disappointments are
unheard of.

Men's Suits.

If your means are unlimited, the highest priced
custom tailor is the one to whom you should certainly
go for your clothing. But if price is an object we
can sell you a suit that will fit you as well, be as well
tailored, but ready to wear instead of made to mea-
sure, at

\$6.50, \$8.00, \$10, \$12 to \$15,

prices that men of moderate means can afford to pay
for good clothing.
The fabrics—worsted, chevrons, crossweaves and
serges—are the best to be had.
The patterns—many of which are exclusive with
us—are the latest.

Our \$8.50 and \$10.00 line of suits is being added
to every week—just as fast as the makers send them.

BUTTERCUPS
The road ran grey, edged deep with
gold.
I saw them in the morning light,
Their thousand shining cups upfold.
I saw them at the noontide hour—
All day from yardways looking up,
Bright flowers, turning and the sun
Keen with shining, golden cup.
I saw them when the daylight fell,
Like any weary thing, asleep.
Beneath the pine with a certain old
And still the flowers inlaid.
Within the twilight's yellow gleam,
Gleam the cups of gold.

During July and August,

the warmest months of the year, most people have difficulty in keeping cool. By clothing lightly, dieting lightly and refraining from alcoholic drinks, a long step towards physical comfort is made. But the most satisfactory refrigerant is

Abbey's Effervescent Salt.

A teaspoonful of this delightful preparation in a glass of ordinary cool drinking water reduces the temperature of the blood and quenches thirst in a natural manner without chilling the stomach suddenly. It stimulates the digestion and refreshes the body.

A pamphlet explaining the many uses of this preparation will be mailed free on application to The Abbey Effervescent Salt Co., Limited, Montreal. For sale by all druggists, 25¢ and 50¢ a bottle.

Abbey's Effervescent Salt

When taken regularly, and as directed, strikes directly at the seat of the trouble. It restores the healthy action and appearance of the skin, by stimulating in a natural manner the organs of digestion. When the stomach, liver and bowels are healthy, the skin will be healthy too.

A pamphlet explaining the many uses of this scientific preparation will be mailed free on application to The Abbey Effervescent Salt Company, Limited, Montreal.

When You Were a Child,

and you required an aperient, it was usually administered in the shape of gripping

Epsom Salts or nauseating Castor Oil.

When you need an aperient now you prefer it in a pleasant mild form, such as

Abbey's Effervescent Salt.

The children should be treated with some consideration, and Abbey's Effervescent

Salt combines gentle effectiveness with pleasant taste, and is relished by young and old.

It is uniform and reliable, made by expert chemists from the original English formula,

and combines every good quality that an aperient and antacid digestive should contain.

A pamphlet explaining the many uses of this fine preparation will be mailed free on application

to The Abbey Effervescent Salt Co., Limited, Montreal. For sale by all druggists, 25c and 50c a bottle.
